Game Informer is reporting that the next iteration of the game won't be hitting stores until at least 2015. The Eidos exec, Francois Laroche, explained to Game Informer that the team has shifted its attention to "other initiatives," adding that the development timeline is expansive and uncertain. The game is being developed by the same team as the MMORPG, and they are "still studying solutions to ensure the continuity of development." Laroche also notes that they are looking forward to "bringing to the Eidos audience this brand new experience, with new formulas and new innovations." What does the past entail? Wait for it... This is the second time the developer and publisher partners for a Nintendo DSiWare title. Both ReAction and Spike Chunsoft previously collaborated to create Tales of the Abyss: A Descendant of the Royal Blood in 2006 for the Wii. The next installment of Atlus's long-running (and largely-acclaimed, if critically divisive) RPG series Enchanted Arms has a November 6th release date in North America, 4Play reports. Alerus Research, a science-fiction game show, has announced that publisher G.Rev in partnership with publisher Atlus are working on a single-player, story-heavy title.
