FIFA 22 introduces Careers, the main mode in which you'll manage the aspirations of your club. Save your club and grow your dynasty to become an undisputed world champion, or join a lucky club to make your mark as a footballer legend. Play the game you want to play, with features, such as Ultimate Team, FIFA Ultimate Draft and FIFA Ultimate Clubs. An all-new Main Menu presents a new slick and intuitive user experience, giving you direct access to all the features you need

for FIFA 22. Powered by Football 2.0 Football is a complex sport, but FIFA games have always felt like they are a bit simple. For many players of FIFA, this has been a major frustration. FIFA 20 was the first in the FIFA series to introduce feature-complete 3D cover players, and since then, every main title has continued to bring these huge improvements in to the experience of gameplay. The most dramatic improvements in FIFA 22 come in the areas where players interact with the ball – both in dribbling and passing – and also in setting up shots for teammates. The next-gen consoles feature the all-new Player Impact Engine that enables greater interactivity with the ball as players dribble and pass with increased speed, power and awareness. What's new in Fifa 22:

- **Soccer Pro - Predictive AI in every skill and tactic. With the introduction of Soccer Pro, your squad will be more dynamic than ever. Your AI-controlled stars will be smarter, more advanced and playing in a more intelligent manner, compared to the advanced psychology that was introduced in FIFA 21. Soccer Pro allows you to set up advanced tactical systems and play-styles, and provides more depth and nuance to your team. There are more than 2,000 different possible systems to build a team around and the added tactical depth makes even the most experienced players' game-feel like they're re-living the glory days in their youth. The FIFA Los Angeles 2023 bid is a Community bid to build a World Class FIFA 2023 Stadium and supporting facilities including walkways, open spaces, parks, ballparks, and other facilities for the USF2023. The Soccer Pro feature has been optimized to work just as hard for our community and players to create a winning team environment as it does for the high profile and world class national and collegiate teams. Not only does the Soccer Pro feature offer a step-up in player intelligence for almost every skill and tactic, but also a new look and feel for these tools. The former performs all the dynamic and fast-paced thinking tasks for your team, while the latter is useful for strategy and tactics on your level. Putting these two together will create an action-packed strategy game and team building experience that will leave you understanding every press coverage, every one-on-one defensive duels, and all player skill levels on the pitch. Now enabled for all players. The Soccer Pro ball physics and animations also allow players to stay connected and breathe on the ball better than before. This results in players controlling the ball completely, and performing skills where players usually lay it back to teammates.**
